WARM & BEST WISHES FOR X'MAS
& 1984 —

While at Stanford I learned that you had shared an Atelier in England w/ Lucia Weiser... she ^{de Fuenzalida} gave me a poster for you which I hope to be able to hand-deliver soon.

I spent a year at Stanford doing my graduate work in Documentary film - I will probably be going back there next Spring to do the 20 to 30 min. long documentary which will serve as my "thesis" to complete my M.A. - I am also applying to do my Ph.D. in Anthropology at Berkeley & keeping my fingers crossed, hoping to be accepted (30 out of 600! GASP!) I met the Fuenzalidas because Edmundo is my boyfriend's (Francisco Tomic's) advisor - It's a small world!

All is well in Paris - Cristobal got back from Bennington College to spend Christmas "w/ the family" -

I hope all is well w/ you & I also hope to see you again soon, Abrazos, Itaka
