Dear Nemescio,

While I'm still pre-senile
I want to see all of you
again. It is now 25 years
since we were in Chile.

I begin a sabbatical in
January and had thought
of being in Chile in the
last two weeks of January
and the first week of February.
If I could be in some
way helpful I would like
to work in your print
workshop... since I'm no
technician I'm not sure
that I would be useful
... but maybe we could
do a book together once
again..

Since Meme is
responsible still for Aunt

Meme (who is in a nursing home) she probably won't come with me to Chile although she might come as far as Costa Rica where we would visit old friends in the second week of January.

All of these plans are fluid... almost formless... first, I want to see what you think of the times are such that a visit might be counter productive tell me so... my feelings won't be hurt.

Meantime, love to you all from Meme and —
Paul
