PRINT ANNUAL
EXHIBITION**

March 22—May 21, 1950

Foreword

The Fourth National Brooklyn Museum Print Annual Exhibition comprises two hundred and twenty-seven prints representing all contemporary graphic art media. Selected by the jury from approximately fourteen hundred entries, it presents the work of artists from thirty-two states and Hawaii. Although the most distinguished and noteworthy examples appear in the media of engraving, etching and woodcut, the exhibition as a whole constitutes an impressive cross-section of American printmaking at the mid-twentieth century.

During the four years of its existence, the Brooklyn Museum National Print Annual has achieved a considerable reputation for its presentation of graphic work that is alive and of our time as well as of high artistic merit. Some two months before the opening of the current exhibition, the American Federation of Arts, which circulates a representative selection of prints from each Annual, announced that the 1950 exhibition was fully booked for the coming year.

The Brooklyn Museum again extends its thanks and appreciation to all artists who submitted their work for the consideration of the jury. It also extends its warm appreciation to Aline B. Louchheim, art critic of the New York Times and to Stanley William Hayter, artist and teacher, who so ably served as members of the jury.

UNA E. JOHNSON

Curator of Prints and Drawings

Selections from the Brooklyn Museum's Fourth National Print Annual are being circulated as a traveling exhibition by the American Federation of Art.
