

London 12-12-78

Dear Pierre

Thank for your card, I was worried not to have news from you - and yet you finish it " a medicine woman and me... the suspense goes on - - -

I sent to Dr. Hildebrandt a project for his mural, you remember I was doubting of doing it before but I talk to my friends here in London and they thought I was wrong I should participate - So I did -

Also, I received from a Chilean who has this year the DAAD fellowship, on literature a letter and the forms, saying I should try again so I am filling it for the third time, they say the third is the winning, in Spanish - I have ask some important English people on the Art, to write and they will - my Chilean friend says I should sent letters of important people - so, here I am - Of course I would like and exhibition at DASH next year - I have such good souvenirs of the last one -

2. In reference to the Chilean art exhibition in Berlin - there is one exhibition organized by Mrs Inge DORMAGEN-KREUTZENBECK - from Essen - is an exh. of 4 Chilean painters MATTA, BALMES, NUÑEZ and myself - for the winter 79 - it is in Oberhausen and Duisburg, "in the Museums of the cities", with the financing of the governments of those cities -

Perhaps that will be possible for you to bring to Berlin and have a simultaneous at your gallery of oil and watercolours and prints - perhaps -

I hope my friends Jowa are well -

Dr.
Best regards to Christine and a small kiss to Janina, the growing one -

yours
