Daer Mrs. Arnaud,

I cannot tell you how grateful we have been to you for your very kind letter and all the news you have given us of our boy's health.

You may imagine the anxiety we have been through hearing of his severe illness and so far away from us. It has been a great relief to know that he is in the hands of such excellent doctors, and that you have taken such an interest in him and are showing him so much kindness.

You will have heard that we spoke to him by telephone yesterday. He told us that he was better, that he would be in the Clinie for a few days more and was then going to you for his convalescence.

Words fail to express the deep gratitude we feel your and your husband's wonderful goodness to our boy. We only hope that some day we may have an opportunity of thanking you personally.

I do not understand why the wound still has not healed so many days after the operation and should be extremely thankful if you would be so good as to give me more details. Forgive me for troubling you further.

Again thanking you with all my heart for all you have done and are doing for Nemecio,

With kindest regards to you and Mr. Arnaud, in which my husband joins me,

Yours very sincerely,
